## From The President (May 1, 2008)

Fabrication Enterprises Incorporated (FEI) is a manufacturer, importer and master distributor of products for Physical Therapy, Rehabilitation, Homecare and Sports Medicine. We have been doing this since 1974. Our products are sold to hospitals, clinics, fitness centers, professionals and individuals by a network of dealers throughout the world. With our *new packaging*, some products can now be sold retail as well!

I am proud to announce that Fabrication is the manufacturer of the product lines listed below. Many of our products are manufactured in the USA and are "CE Marked" so that they can be sold and used in Europe and beyond. Most products you see in our catalog are in stock and available for shipment within 1 business day!

- o Cando® exercise band and tubing (look for the new packaging!)
- o Cando® inflatable balls, foam rollers, and other balance products
- o Cando® exercise mats
- o Cuff®, Pouch™ and SoftGrip™ exercise weights
- o Cando® Theraputty™ exercise putty
- o Baseline® measurement instruments
- o Relief Pak® hot and cold products
- o Point-Relief™ massage products
- o WaxWel™ paraffin baths and refills
- o Skillbuilders® positioning products
- o Dipsters® patientwear

Notice the Cando, Baseline, Cuff, and Skillbuilders page banners throughout the catalog. Under these banners see the many new products that we have developed.

**The prices in this catalog are suggested "list" prices.** Please cross-reference with the Dealer Price Schedule for Dealer/Distributor "column A" and "column B" prices. Please contact me directly (at extension 1200) regarding additional pricing for products you may want to include in your catalog or website. Photography for all products in the catalog is available on CDROM and on our FTP site. Contact Andrew (at extension 1225) for further information. FEI can manufacture and supply many of our products under private label and can supply products not portrayed in our catalog.

Thank you for supporting Fabrication Enterprises! Please let me know if there is anything we can do to make your "Fabrication" experience better.
